

Executive Summary
Associate Degree in Supply Chain Management
Faculty of Management
Self Assessment Cycle – II (2020-21)

Virtual University of Pakistan is providing world class ICT-based distance education to the aspiring students in Pakistan and abroad and addressing simultaneously the acute shortage of qualified professors in the country. To fulfill needs of Quality Assurance Agency (QAA) of HEC for ranking the program, Department of Management Sciences initiated the Self-Assessment process for Associate Degree in Commerce. The current document summarizes the findings of the self-assessment process of Associate Degree in Supply Chain Management. The process includes:

1. **Self-Assessment Report (SAR)** development by Program Team (PT).
2. **Assessment Report (AR)** by Assessment Team (AT) after critical evaluation.
3. **Rectification Plan** administered by the Head of Department.

The tasks were completed according to the set methodology through Program Team and Assessment Team nominated by the Rector on the recommendation of the Department.

Methodology

The department adopted the identical methodology defined by Quality Assurance Agency of HEC. The methodology includes the nomination and notification of PT and AT after approval of the competent authority. PT developed the SAR in accordance with eight (8) criteria provided by QAA. Various recommended surveys were also conducted for collecting diverse feedback. A meeting was arranged for critical evaluation of the program by AT in which Head of Management Sciences department and staff of Directorate of Quality Enhancement (DQE) were also present. After the visit, AT submitted a report and feedback form (Rubric Form) to DQE. Based on the findings of AT, the Head of Management Sciences Department was requested to develop a rectification plan.

Program Team and Assessment Team Formation

Sr.#	Name	Status	Designation
1.	Mr. Amir Qureshi	PT	Lecturer, Department of Management Sciences
2.	Ms. Saliha Anwar	AT	Lecturer, Department of Management Sciences

Key Findings of the SAR

The AT appreciated the efforts of PT to develop such a comprehensive report of the 'Associate Degree in Supply Chain Management' program. The AT endorsed the program structure and suggested few improvements in study scheme designed by the department. The infrastructure and support provided by the university to execute the program were also

reviewed and considered compatible with smoothing execution of the program. However, the following few observations were reported by AT in its report:

1. By rejuvenating curriculum of associate degree in supply chain management, add more skill based and practical courses from the area of supply chain management, the outcome will be phenomenal for society and university.
2. The categories of courses should be defined in program scheme of studies and there is a need to revise and update handouts for courses and develop new video lectures where possible.
3. The establishment of separate dedicated section for student counseling and advising.
4. More faculty with Ph.D. specifically in Supply chain should be recruited.
5. The infrastructure for Library including latest books, journals, publications and manpower i.e. Librarian, should be established.
6. There must exist a system in VUP wherein faculty update themselves with modern tools & techniques, processes and technologies in the field of Supply Chain Management.

Conclusion and Recommendations

Analysis of the Criteria Referenced Self-Assessment reveals that performance of the department is good to excellent in most of the areas, however, fair performance has been observed in two of the areas i.e. criterion 3 (Laboratories and Computing Facilities) and 8 (Institutional Support). The program has secured overall good to excellent performance in all areas with assessment score (76.03/100) reported by the AT.

The areas that need corrective actions identified during the self-assessment process have been reported to the Head of Management Sciences department for rectification. DQE will follow-up the rectification plan as per specific timeframe to track continuous improvement.
